EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

ABSTRACT Shortened:

In the ABSTRACT, line 9, following the word "model.", the sentences beginning "Alternatively ..." through lines 14 and ending with "condition." Have been deleted.

The last two sentences of the ABSTRACT have been deleted in order to reduce the size of the ABSTRACT to be less than 150 words as required by regulation.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments in combination with the amendments presented more fully distinguish the invention from the Vancura reference and the combination of Vancura with Ugawa. More particularly, it is felt that at least the clear recitation of the software (or computer) randomly selecting (parameter values, initial conditions/paths/outcomes/endpoints/origin state) as now clearly set forth in the respective independent claims distinguishes over the prior art of record in the manner asserted by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
